**Subject:** Microsoft Proposed Anti-Trust Settlement

Whilst I am outside the US jurisdiction of the Microsoft and Dept of Justice anti-trust proceedings, I am opposed to the settlement proposed, since I believe it is ineffective in dealing with the breaches of anti-trust provisions and the abuses of monopoly power already proved in the case.

As a long-time user of computers in a wide variety of businesses, the abuse of monopoly power demonstrated in this case represents a diminution of my freedom of choice in computing and therefore an unwarranted restriction upon the operation of my business.

Yours sincerely,  
John Angelico
